DATA PRO ✓

Bernd Remmele - PH Freiburg

DataPro - Hybrid Concept Workshop
27 Sep 2024 Budweis/Online

**Co-funded by
the European Union**

AGENDA - CONCEPT WORKSHOP

- 9.45 Short Introduction into DataPro – Project
- 10.00 Bernd Remmele (University of Education Freiburg): DataPro Curriculum
- 10.30 Zlatko Valentic (University of Education Freiburg): (First)Results of DataPro Survey
- 11.00 Annemieke Akkermans (Lie Detectors): Critical Thinking in the Classroom
- 11.30 Benjamin Stingl (School Ministry Rhineland-Palatinate): Digitally Sovereign: How Rhineland-Palatinate Empowers Students with Data Privacy
- 12.00 Samuel Fricker (CyberGEIGER): AI-based Learning Tool – Conversational Agent
- 12.30 Final Discussion – Prospects of DataPro
- 13.00 End of Workshop

IDEA BEHIND THE DATAPRO

- Information Society / Data Economy

We have only seen the tip of the iceberg yet!

- The growth of information, immaterial work, communication networks ... makes the world more complex.
- Information (e.g. rules) is also a way to reduce/organise complexity.
- What are the rules for you to take part?

- Data has become a major asset - often as a by-product of general human agency.
- Who owns it?

IDEA BEHIND THE DATAPRO

- Ambivalences of (young) people in regard of 'DATA':
 - expectation it will be protected by ??
vs. resignation: they know already everything
vs. kind of myopia: I have nothing to hide
 - cookie banners, data protection settings, ... are a nuisance
vs. 'freely' sharing on social media
vs. ignorance (missing education) on the value of data...

→ aims

IDEA BEHIND THE DATAPRO

Ambivalences →

- DataPro focuses on how young people understand and practice data protection - in concern of their own data -- and that of others
- DataPro wants to improve their perspective on data protection as field of human rights and data as a valuable asset.
- DataPro wants to identify pertinent learning hurdles and to develop learning tools and materials for secondary schools (reflection country-specific syllabi)

Jan 24 to Aug 26

BACKGROUND-PREVIOUSLY ON DP ...

- GEIGER (Horizon - 2020/22): Cybersecurity solution for small businesses, incl. training with multi-level curriculum
 - different perspectives for data protection: companies, staff also as private users and customers
- MECyS (erasmus - 2023/25): Micro-Entreprise CyberSecurity, incl. 'Report on Learning Hurdles':
 - strong ambivalences concerning data protection: importance, insecurity, annoyance, resignation ...
